Please amend the Abstract of the underlying International Application No. PCT/EP2004/008914 as follows:

**ABSTRACT**

~~The invention relates to a~~ A forming molding tool for producing molded foam bodies, particularly polyurethane molded foam bodies, by filling a mold with an expandable reactive mixture, whereby the shaping inner surfaces of the tool are provided with a microstructuring with the lotus leaf effect and/or with a durable nonstick coating made of a fluoroplastic or of a diamond-like coating.
